PROFESSIONAL POSITIONS HELD

2010 (ongoing)	Lecturer BMSC-406	Victoria University of Wellington
2011 (ongoing)	Lecturer CLNR-580	Victoria University of Wellington
2013 (ongoing)	Senior Scientist (Bioinformatics)	Environmental Science Research (ESR)
2014 (ongoing)	PostDoc (Feb-)	Queensland University of Technology

EDUCATION

2010-2014: PhD School of Medical Sciences, Griffith University, Queensland, Australia.
Thesis: *"Identification of Susceptibility Genes for Metabolic Syndrome in the Isolated Population of Norfolk Island"*

2009: MSc (HONS) Cell and Molecular Biology, Victoria University of Wellington.
Thesis: *"Mitochondrial Genome Variation and Metabolic Traits in a Maori Community"*

2007: BBMedSc. Biomedical Science, Majors: Human Genetics, Molecular Pathology, Victoria University of Wellington.

PRESENT RESEARCH/PROFESSIONAL SPECIALITY

I completed my PhD exploring the underlying genetic susceptibility to obesity and metabolic disorders in the Norfolk Island population isolate. My main areas of research are Bioinformatics and Computational Genetics. I am currently in a PostDoc position at QUT working on the creation of methods to deal with, and analyse, large genomic data sets, including the incorporation of multiple layers of both phenotypic and genomic data. I work on a range of complex human disorders, including; obesity and type-2 diabetes, multiple sclerosis, glaucoma, migraine, ovarian cancer and asthma. Over the last 5 years I have been working closely with genome-wide methylation arrays and, more recently, next-gen sequencing approaches to DNA methylation and epigenetics. This involves the ongoing development of custom QC and analysis routines for Illumina 450K methylation arrays as well as a new next-gen sequencing approach from Roche-Nimblegen.

PROFESSIONAL DISTINCTIONS AND MEMBERSHIPS

Research Grants

2015 PI. Wellington Medical Research Foundation Validation of Blood Cell Lineage Specific DNA methylation markers

Professional Memberships and Related Experience

2015 – present Ad hoc reviewer, Gene

2015 – present Reviewer National Health and Medical Research Council, Australia

2014 – present Member Australasian Genomic Technologies Association (AGTA).

Honours and Distinctions

2015 ESR Vision Best Paper Award (August 2015)

2014 Best Poster Presentation, Genemappers Conference 2014, Novotel Barossa Valley Resort, SA, Australia, 11th – 14th May 2014.

2012 Inaugural Grasshopper prize for Scientific Innovation. Wellington Health and Biomedical Research Society annual students and early researchers meeting, Victoria University of Wellington, Wellington, New Zealand, 19th November 2012.

2012 Best Student Presenter. 2nd Biomarker Discovery Conference, Shoal Bay Resort and Spa, NSW, Australia, 5th December 2012.

2010-2013 Griffith University Higher Degree Research Scholarship 2010-2013.

2007-2010 ESR Masters Research Scholarship

Supervision

April 2016 Completed QUT Effective Supervisory Practices Level 1

A course designed to walk Research Supervisors through the frameworks and pragmatic issues associated with supervising in today's research environment; ultimately to provide them with effective and essential tools for their supervisory tool kit.
